Thank you for ordering your FREE Product & Price Guide. As promised, you will discover more about...

Reducing Wastage & Money On Batten & Decking Screws & Other Fasteners That Snap & Corrode.

Hi! It's Aaron Zhou, the CEO of MAZ Fasteners Direct.

I've been fielding some fantastic questions from **timber flooring & fencing installers, fastening retailers and wholesalers** and others about our **quality screws & fasteners, which has been awesome!**

One of the best questions asked was:

Why choose MAZ Fasteners Direct over other suppliers?

If you have any experience looking for and buying **quality screws & fasteners**, you already know there's no shortage of retailers and wholesalers around the corner or in the world.

That said, here are a few benefits MAZ Fasteners Direct offers that many other services do not.

- **Quality Stainless Steel And Corrosion Protection** – Our decking screws are made from **real stainless steel**. Our batten screws come with an option of stainless steel or galvanised class 3 protection. These materials provide the ultimate in protection against corrosion and ensure a long-lasting screw. Don't be duped into buying inferior screws that won't stand up to the elements of our harsh Australian climate. You'll only be stuck having to replace them all later down the track.

- **Guarantee** – We guarantee our fasteners are new and manufactured per order. All fasteners meet the specified standards and are of highest quality, suitable for commercial projects and retail sale.

Of course, these are just some of the benefits, which you will find out more about in the following pages. Enjoy your product guide and please don't hesitate to contact us for further information.

*All the best,
Aaron and the team
MAZ Fasteners Direct*

"Last longer and hold stronger with MAZ."

P.S. If you're after a proven way to beat the high cost of quality screws & fasteners for commercial or retail use without sacrificing quality or your budget, please contact us ASAP, so you do not miss out.

About MAZ Fasteners Direct!

Hi, my name is Aaron Zhou, the CEO of MAZ Fasteners Direct.

When I'm not working on my business, I often enjoy listening to music, playing basketball, going fishing and exploring different house design ideas.

I have a strong passion for anything that revolves around building and designing houses.

For me, it's all about smart design and cost effectiveness, and ensuring that the end result is well presented and economically sound, with built in quality to last. Getting this combination right is absolutely priceless.

That's why I started MAZ Fasteners Direct, because getting a building done right is so important, and it all starts with the smallest piece, the almighty fastener.

Now I'm happy to be providing quality materials all over Australia to people like you, who love to utilize prime screws with amazing value for money.

We will work with you to provide a direct solution to your needs. **Our fasteners are designed to be up to the task, big or small.** Whether you're a large wholesale company or just someone looking to replace a few screws in the deck, we give the same treatment and care to all of our customers.

*There are many things we're proud of here and there's **a lot more to our story than this**, which we look forward to sharing with you when you contact us for further information.*

“Seven Benefits Of MAZ Fasteners Direct”

At MAZ Fasteners Direct, we have a wealth of personal experience in the purchasing and use of fasteners for a variety of applications. We are friendly professionals who stand behind the products we sell. And while there are many reasons for you to choose us, here are just seven of them:

1. RealStainless Steel And Corrosion Protection

Our decking screws are made from real stainless steel, while our batten screws come with an option of stainless steel or galvanised class 3 protection. These materials provide the ultimate in protection against corrosion and ensure a long lasting screw. Don't be duped into buying inferior screws that won't stand up to the elements of our harsh Australian climate. You'll only be stuck having to replace them all later down the track. Make sure you choose quality assured products every time.

2. Different Thread Options

In addition to our standard options, we also offer our fasteners in knurl shanks thread or saw cutting thread options. Knurl shanks allows for better pull down and a reduced risk of timber splitting, which is an absolute nightmare to deal with.

Our saw cutting thread grants the advantage of a comfortable drive in and less resistance on the screw. This reduces the risk of head snaps and uses less driver talk. Both of these designs are on request, so be sure to inquire!

3. Quick And Safe Installation

All of our fasteners are designed to allow a quick and safe drive into the desired material or surface, ensuring faster installation while saving you time and money. Screws are outfitted with a countersink head, making the screw sit flush with timber and preventing any tripping hazards. They also include a type 17 point, allowing the screw to drill its own hole.

4. Cut Out The Middleman

When you purchase from MAZ Fasteners Direct, you're doing just that, buying direct! That means that the lower price point gets passed onto you, the customer, for higher savings.

5. Competitive Pricing

At MAZ Fasteners Direct we provide a value for money service. Our quality products are affordable, durable and versatile. The low maintenance costs involved with all of our products mean that the savings are effortlessly passed onto you, the customer!

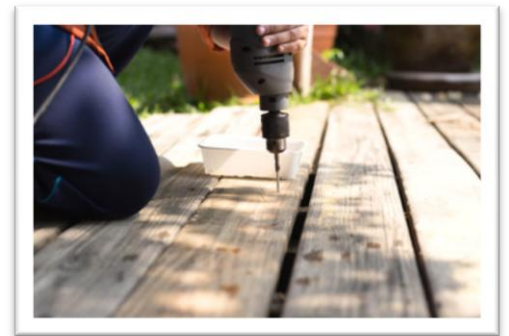

6. Expert Advice

Not sure what kind of fasteners you need? Not sure about how to best place an order? Any questions you may have about fasteners we can answer, no problem. We are experts in our field and are happy to pass that knowledge onto you so you can make the best possible decision when it comes to purchasing fasteners.

7. Guarantee

We guarantee the product is new and manufactured per order. All fasteners meet the specified standards and are of highest quality, suitable for commercial projects.

When it comes to premium quality fasteners for commercial or retail use, MAZ Fasteners Direct has the solution for you.

For further information and exact pricing on our Fasteners, please contact us on [1300 169 808](tel:1300169808) or alternatively email us at Office@mazfastenersdirect.com.au

SS304 Decking Screws

“Need Decking Screws That Will Save You Time & Money?”

SS304 Decking Screws – No.2 Square Drive

Stainless steel ss304 decking screw:

- Type 17 point with ribbed countersunk head, nibs and No.2 square drive

Dimensions:

- 10g-10 – 50mm

Standard Inclusions:

- Ready to use and put into ACTION for your job

Warranty and What It Covers:

- Real quality stainless steel and guaranteed to hold deck down firmly with strength DIN AND ISO AND Australia standard

Custom Options:

- 10g-10-40mm, 50mm, 60mm, 65mm
- 8g- 9 – 40mm, 50mm.60mm.65mm
- Option adding unique wave Knurl shanks thread (advantage: for better pull down and reduced risk of timber splitting) and saw cutting thread (advantage: for easy drive in and less resistance on the screw, to reduce risk of head snaps, and uses less driver torque) design available on request

Head options:

Trim head with nibs.

Size options:

- Any sizes or dimension available on request
- Stainless steel SS316 marine grade available on request

Features & Benefits:

- Premium trade grade quality
- Stainless steel 304-high corrosion protection
- Ribbed countersunk head with nibbed for positive bit engagement

- Type 17 with special long shape fluted point capture chips in timber and quick and easy drilling
- Countersunk head allows the screws to sit flush and give a clean finish
- Suitable for outdoor areas
- Stainless steel used for non-marine areas
- The square drive holds better, with no strip out as easy as Phillips head screws

SS304 Decking screws – T25 Torx Drive

Description:

- Stainless steel ss304 decking screws
- Type 17 point with ribbed countersunk head, nibs and T25 Torx drive

Dimensions:

- 10g-10-50mm

Standard Inclusions:

- Ready to use and put into ACTION for your job

Warranty and What it Covers:

- Real quality stainless steel and guaranteed to hold deck down firmly with strength

Custom Options:

- 10g-10-40mm, 50mm, 60mm, 65mm 8g- 9 – 40mm, 50mm.60mm.65mm T10 torx drive
- Option adding unique wave Knurl shanks thread (advantage: for better pull down and reduced risk of timber splitting) and saw cutting thread (advantage: for easy drive in and less resistance on the screw, reduced risk of head snaps, and uses less driver torque) design available on request

Head Options:

- Trim head with nibs

Size Options:

- Any sizes or dimension available on request
- Stainless steel SS316 marine grade available on request or any other sizes

Features& Benefits:

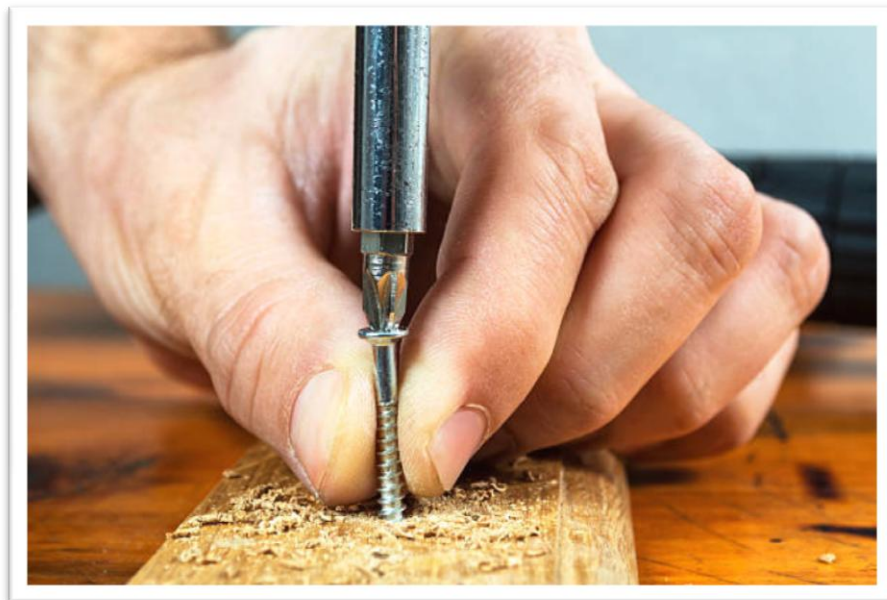

- Premium trade grade quality
- Stainless steel 304-high corrosion protection

Stainless Deck Screw

- Ribbed countersunk head with nibbed for positive bit engagement
- Type 17 with special long shape fluted point captures chips in timber and quick and easy drilling
- Countersunk head allows the screws to sit flush and gives a clean finish
- Suitable for outdoor areas
- Stainless steel used for non-marine areas
- The T25 torx drive holds better, with no strip out as easy as Phillips head screws

When it comes to premium quality fasteners for commercial or retail use, MAZ Fasteners Direct has the solution for you.

"Feeling Anxious Over How To Solve Rising Purchasing Costs Without Sacrificing Money Or Quality?"

Dear business owner...

Let's face it. Finding a personal service that can supply **stainless steel and MECHANICAL galvanised batten and decking screws and other fasteners** can be stressful, costly and time consuming.

Spending your limited time talking with sales reps, hunting down the right type of **fasteners** for your needs, sorting out delivery and other things you need to do takes a lot of time and energy out the limited time you have each day.

Then of course, there's the price and the benefits you're receiving not only with the **fasteners you're purchasing** but the supplier you're buying them from.

My doctor said I must be sick for offering such an incredible opportunity. But I am willing to put my money where my mouth is and show you exactly how you can **slash the purchasing costs** on new decking and batten screws. In fact almost any fastener you can think of! Just give us a call or check out our website at www.mazfastenersdirect.com.au.

Think about this: If you or your business could save \$1,500, \$3,700 or **more buying stainless steel and galvanised decking and batten screws without** sacrificing quality, wouldn't you want to know more?

Of course you would. But how? ACT NOW and call me on **1300 169 808**.

If you don't make contact in the next 48 hours, I'll call you in a few days to have a chat and explain how the process can work to your benefit.

Also, our **fasteners are highly competitive for many reasons, which is why they are** highly sought after. You're not the only one who has received this opportunity either, so we should talk soon.

All The Best,

Aaron & The Team
